LIFE'S RECIPROCITY.

I love my neighbor and I try
To take him as he's found;
Nor seek in friendship to apply
A test that's too profound.
I do not join the rancorous men
Who speak with wrathful mind
Against a fellow mortal when
He has an ax to grind.

This life is far too few in days,
While earnest duties press,
To let us tread alone the way
Of sweet selfishness.
It's give and take and give again,
So don't be left behind,
Perhaps the day is coming when
You'll have an ax to grind.

HENRY J. ADAMSON.

Well Known in This City—Dies in the Philippine Islands.

Word was received this week of the death on April 28th in the Philippine Islands of Henry J. Adamson of Carlisle.

Deceased was the son of Mr. and Mrs. John Adamson and was 25 years of age.

His death was due to an attack of typhoid fever.

About the first intimation relatives here had of his death was in the list of casualties published in the telegraphic service of this paper, when the name "Henry J. Adams" appeared.

Subsequent inquiries from the War Department as to his family connections confirmed the report.

He was a member of Company D, Thirtieth Infantry, and had twice offered his services to Uncle Sam.

He was well known and had many relatives in this city, and his untimely demise in that far-away country is deeply regretted.

His remains will be taken to Carlisle for burial.

OUR TOWING SYSTEM.

Lock and Dam the Ohio and Thus Encourage This Business.

New York Marine Journal.

The towing system of river transportation, peculiar to the inland waters of the Ohio and Mississippi Valleys, is one of the most important developments of modern times. The Eastern system of towing is entirely impracticable on Western and Southern rivers. To those who may not be familiar with the Western form of river carriage, a word of explanation may be in place.

In river parlance, a "tow" consists of a steamer of great power, but carrying no freight except fuel for use of the boat, and to one of the largest class of steamers there is hitched by means of cables and chains fifty heavily loaded craft, called "barges" or "coalboats," drawing from six to nine feet depth of water and lashed in a solid, compact form, ten or eleven wide and four or five lengths; such a tow will cover, including the steamer, a space of river surface 1,100 feet long by about 300 feet wide, making a cargo of from 40,000 to 50,000 tons, each "coalboat" holding 1,000 tons. The craft of the tow are freighted with coal, iron, steel rails, cotton ties, corn, wheat or general merchandise, on return trip, sugar, molasses, lumber, etc. The carrying rates of such immense cargoes from Louisville to New Orleans, a distance of 1,380 miles is about ninety-five cents per ton, a freight that would bankrupt all the railroads in the United States.

This mode of transportation is the pride and joy of the citizens of the great valley in which it is having its fullest development and answering the demands for cheap carrying rates, especially of the heavier grades of commerce.

No one has ever filed an objection or uttered a word in opposition to these immense fleets navigating the great rivers of the South and West. On the contrary, in these times of modern improvement and giant progress, such utilization of the people's waterways commands unanimous approval and hearty appreciation. In this connection it is a pertinent inquiry, why should such economic use of our rivers be interfered with or limited, as is proposed by Senate Bill 3,331 and House Bill 9,243, which propose to confer on the Secretary of the Treasury unlimited authority to limit the size of tows on the inland waters of the United States? This high official is supposed to possess large financial skill, but is not presumed to be expert in navigation, especially the peculiar system in use on the Western and Southern rivers. Why limit or restrict such surprising possibilities of water carriage? These tows have never injured public or private property, and if they did, the owners are responsible and would be compelled to make compensation for any damage that might occur.

This transportation system has responded to the vast farming interests of the Northwest, and has largely assisted the farmer in securing foreign markets, as it is doing for the products of other industries, and deserves broad and liberal treatment on the part of Congress. More than half of the states and territories of the Union are interested in the improvement and utilization of the waters which find their way into the Gulf of Mexico.

The Mississippi river bisects the territorial domain of the Nation, reaching from the interior to ocean highways, furnishing over 3,000 miles of direct water carriage, to which add 1,000 miles of waterway of the Ohio Valley, the greatest freight producing valley in the United States, besides some 10,000 miles of other navigable tributaries, and it would seem to be the supreme dictation of wisdom to make the best possible use of this long sweep of waterway, and, instead of this efficient servant of the people being crippled by restricted legislation, it ought to be protected from encroachments and limitations and be improved so that the best possible use may be secured in the distribution of farm, mill and mine products at the lowest possible carriage cost.

\$100—Reward—\$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, etc. Hall's Family Pills are the best.

When the liver fails to secrete bile, the blood becomes loaded with bilious properties, the digestion becomes impaired and the bowels constipated. Horner's has a direct action on the liver and excretory organs, and a few doses will cure any case of biliousness. Price, 50 cents. J. Jas. Wood & Son.

Nicholas county will be 100 years old June 1st and The Carlisle Mercury will celebrate by issuing an historical and illustrated paper.

The Elizaville correspondent of The Fleming Gazette says Miss Alice Dorsey will be married upon the close of her school at Needmore to a worthy gentleman of that vicinity.

"It is with a good deal of pleasure and satisfaction that I recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Druggist A. W. Sawtelle of Hartford, Conn. "A lady customer, seeing the remedy exposed for sale on my show-case, said to me: 'I really believe that medicine saved my life the past summer while at the shore,' and she became so enthusiastic over its merits that I at once made up my mind to recommend it in the future. Recently a gentleman came into my store so overcome with colic pains that he sank at once to the floor. I gave him a dose of this remedy, which helped him. I repeated the dose and in fifteen minutes he left my store smilingly informing me that he felt as well as ever." Sold by J. Jas. Wood & Son, Druggists.

BLACK DIAMOND AGAIN!

President Harrison Says American Capitalists Will Build Road.

A dispatch from Knoxville says that in an interview President J. B. Harrison of the Boone Black Diamond Railroad Company stated that if the financiering plan of Colonel T. C. Dickinson to interest English capitalists in the road fails, American capitalists are ready to take the building of the road. Colonel Dickinson's option on the rights of way expires September 20th, and if the English capital is not ready then the options may be transferred to a large American syndicate, whose agent has been in Knoxville securing information as to the road.

This is Colonel Albert E. Boone's proposed road from the Ohio river to Port Royal, S. C.

Does It Pay To Buy Cheap?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boecher's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. For sale by J. C. Fecor.

Really beautiful patterns. Some in deep, rich greens covered with graceful scrolls, copied after old-fashioned Florentine embroidery. Large and small floral designs shading into glowing reds. Enchanting blue effects in bold conventional outlines. You can select from these attractive patterns for 75c a yard. A modest price for a tapestry carpet, is it not especially for this sort. We are not talking of jute carpets on which the pattern is printed after the weaving is done. No. These tapestries have an all-worsted surface and the design is dyed on the yarn warp, thread by thread, before the carpet is woven, hence the pattern lasts until the fabric is worn through. This is the most excellent line of tapestry Brussels we have ever found for the money. The purchaser of a carpet, at any price, this month will be presented with a nice carpet stretcher.

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart Failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. For sale by J. C. Fecor.
